Professional Summary

Dedicated 3rd-year B.Tech CSE student with strong expertise in front-end development, modern UI/UX, React.js, and animation-rich web experiences. Hands-on experience with Appwrite backend services (Authentication, Database, Storage) and JavaScript game development. Passionate about building full-stack applications, visually rich interfaces, and creative web experiences. Actively seeking internships and real-world projects.

Skills

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Framer Motion **Backend:** Appwrite (Auth, DB, Storage), Node.js (Basics), Express.js **Database:** Appwrite Databases, MongoDB (Basics) **Tools:** Git, VS Code, Figma **Other:** Canvas API (2D Games), jQuery (Basics), Responsive Design, UI/UX

Projects

1. Portfolio Website (React.js)

A modern, responsive portfolio with animated sections created using React.js, Tailwind CSS, and Framer Motion. Includes EmailJS-powered messaging.

2. Full Blog Application (React + Appwrite)

A complete full-stack blog built using Appwrite's backend services. Key features:

- User Authentication (Email/Password)
- Appwrite Database for storing blog posts & user info
- Image/File Storage via Appwrite Storage
- Secure CRUD operations
- Responsive UI with React + Tailwind CSS

3. 2D Shooting Game (HTML Canvas)

A performance-optimized 2D shooter game developed using HTML Canvas API. Includes enemy spawning, collision detection, animations, particle effects, and smooth gameplay mechanics.

4. Ravenfall Game-Themed UI

Interactive gaming-style interface inspired by Valorant/Xentry, focusing on neon gradients, animations, and immersive UI/UX crafted with CSS & JS.
